firefighter for the BFD and then a military soldier for a Special Forces squad known as the Ragged Ravens. He served in both professions alongside a close friend who he had known since childhood. He also became affiliated with **Kingdom Corporation**, eventually becoming a veteran of their subsidiary K/SEC.

After the events of **First Light**, the secretive VALORANT Protocol was founded, with Byrne being the first agent to join them and eventually becoming its leader and commander, "Brimstone". In recent years his position has left him with more of a back-line presence, but life behind a desk has never been of interest to Brimstone, and he'll make sure to still be present in the field from time to time.

Personality

"Sage, remember that you can't save everyone. We save who we can, that's enough"

— Brimstone to Sage

The oldest of the group, Brimstone is a commander with a long history of wearing a uniform, but as if teaching from age and experience wasn't enough to prove his place in leading an organization composed of unique individuals who are each an elite in their own right, then perhaps continuing to work with boots on the ground sealed the deal.

As commander of VALORANT and its most senior member, Brimstone always encourages his teammates whenever he can, and does not seem to obligate his subordinates to speak in a formal or professional manner that is usually seen in the military; this is notable as he refers to the younger agents as "kids." Additionally, Brimstone describes himself to be stubborn, and is quite adamant in not letting age get him into retirement anytime soon.

Appearance

Brimstone is a tall and large man who is commonly seen wearing a blue shirt with a chest plate over it. He wears an orange beret which notably has a gold-colored insignia that depicts two inverted chevrons, possibly referring to his military rank. Brimstone sports a gray mustache and a heavily grown beard. He wears gloves on both hands, and an arm bracer on his left wrist.

He is also known to have a tattoo on his right upper arm.^[14]

Trivia

- Though agents are required to leave their past lives behind, Brimstone still wears armor bearing the Kingdom logo, also despite the company's controversial reputation among fellow VALORANT agents.

Relations

- There is friction between him and **Breach**.
 - Brimstone tends to voice his displeasure about having to deal with Breach in any way.
 - "You did well Breach, don't expect a hug."*
 - "Jackass."*
 - "An enemy Breach? Ughh...there goes my good day..."*
 - Breach himself suggests that Brimstone has reasons to prefer not working with him.
 - "It could be worse Brimstone. Instead of working together, we could be facing off. Or maybe you'd prefer that..."*
 - "Haha, when that Brimstone sees me here, he's gonna be sooo pissed."*
- Brimstone has a close bond with **Killjoy**, who he sees as his protégé.^[15]
 - She was the one who designed his bracer.
- He appears to have a close connection with **KAY/O**. Brimstone fights alongside him in KAY/O's reveal trailer, and both of their Tier 9 **player cards** (**Brimstone**, **KAY/O**) shows them carrying someone in their arms.
 - The similar player cards have sparked several theories, but whatever the case, it has been confirmed that the similarities between the two are intentional.^[16]
- After meeting in unpleasant circumstances, Brimstone has apprehensions towards Chamber.
 - "Please Brimstone, I am your key to the other side. You should at least pretend to like me!"*
- Brimstone knew someone called Tariq Porter. Despite his best efforts to save Tariq though, Brimstone had to watch him die.
